

Contents

Chapter 1

1.1 Advantages of steel as a building material	1
1.2 Disadvantages of steel as a building material.....	2
1.3 Comparison between steel and reinforced concrete structures.....	2
1.4 Field of steel structures	2
1.5 Specifications and Codes	4
1.6 Structural steel	5
1.7 Classification of cross sections	5
1.8 Types of steel cross sections.....	6

Chapter 2

2. Steel hanger.....	9
2.1 Steps for the design of steel hanger	9
2.2 Choice of the system.....	9
2.3 Drawing of the general layout	11
2.3.1 Main system	11
2.3.2 Bracing system (Wind bracing)	13
2.3.3 Covering system	15
2.3.4 Finising	15
2.4 Calculation of loads and internal forces	33
2.4.1 Cases of loading.....	33
2.4.2 Loads.....	34
2.4.3 Internal forces	41
2.4.4 Design forces (Critical forces).....	46
2.5 Design of structural elements	49
2.5.1 Buckling.....	49
2.5.2 Allowable stresses.....	54
2.5.3 Factor of safety and its reasons.....	55
2.5.4 Sections used in different members	64
2.5.5 Design of tension members	65
2.5.5.1 Choice of section of tension members.....	68
2.5.6 Design of compression members.....	80
2.5.6.1 Allowable stresses in compression members	80
2.5.6.2 Choice of section of compression members	81
2.5.6.3 Tie (Batten) plates.....	82
2.5.6.4 Slenderness ratio of Battened compression members	83

2.5.7 Design of zero members	88
2.5.8 General considerations for the choice of members	88
2.6 Design of connections	90
2.6.1 Methods of connection in steel structures	90
2.6.2 Bolted connections.....	90
2.6.3 Welded connections.....	112
2.7 Drawing of details.....	124

Chapter 3

Steel Columns	129
3.1 Introduction.....	129
3.2 Standard hot rolled sections.....	131
3.3 Built-up sections	133
3.4 Buckling length of columns.....	135
3.5 Egyptian specification for columns	145
3.6 Design of rolled sections.....	152

Chapter 4

Steel Frames	161
4.1 Introduction.....	161
4.2 Loads acting on frame.....	162
4.3 Straining actions.....	163
4.4 Choice of sections	164
4.5 Checks.....	165
4.6 Girts.....	176
4.7 Plate girders	181
4.8 Crane girder	182
4.9 Steel column base	183
5. Estimating cost of steel structures	184
6. Egyptian Code of Practice	185
7. Tables of rolled steel sections.....	245
